[ ] delivered to Mr. H. G. Ainsworth, Department of STATE, DRAFT MEMORANDUM prepared by the Machinery Branch, D/I REGARDING SOVIET NEEDS FOR AND AVAILABILITY OF CHEMICAL EQUIPMENT ON THE I/L II LIST. Although CIA has not been in a position to develop all of the intelligence requested in support of parallel export controls, it is considered that the draft memoranda recently transmitted to Mr. Ainsworth cover CIA's responsibility under the January 1951 agreement with OIR. (1 hour) (30 April)

[ ] attended OPERATING COMMITTEE MEETING which CONSIDERED SECOND QUARTER EXPORT QUOTAS FOR BOVINE HIDES AND SKINS, WOOL RAGS, WOOL WOLLS AND WASTE, WOOL TOPS AND WOOL YARN. The CIA representative took no position except in regard to the recommended export quota for high-grade wool rags. Wool rags were added to the positive list in February 1951 at a time when export demand was exceedingly high. As a result, industry is appealing for the permit to export substantial quantities of high-grade rags in order to avoid undue hardship on the industry. Since the recommended reserve quota to cover appeals for shipments to Japan is several times the essential civilian needs in Japan, CIA RESERVED ITS POSITION TO INVESTIGATE PROBABILITY OF TRANSHIPMENTS OF HIGH-GRADE RAGS. (3 hours) (30 April)
